

FAMILY OF RIGID WALL SHELTERS

DESCRIPTION

The Marine Corps Family of Rigid Wall Shelters consist of the Electronic Magnetic Impulse and Electronics Maintenance Complex Rigid Wall Shelters. These shelters provide a highly mobile, environmentally controlled work space used for maintenance, communication, and calibration facilities use to protect equipment and functions needed to support Fleet Marine Force operations.

OPERATIONAL IMPACT

The Family of Rigid Wall Shelters is used at intermediate maintenance activities to provide a tailored electronics maintenance facility to support the operations

of any of the supporting elements of a Marine Air Ground Task Force as well as to provide short term contact team maintenance support.

PROGRAM STATUS

The Family of Rigid Wall Shelters is reviewing new requirements and modification to reflect the changes in industry and mission requirements.
